GOVERNOR

STATE OF MICHIGAN  
DEPARTMENT OF NATURAL RESOURCES  
LANSING

DR. WILLIAM E. MORITZ  
DIRECTOR

SUBMITTED:

MEMORANDUM TO THE DIRECTOR

Information: Natural Resources Commission

Subject: Order to Regulate Use of Managed State Wildlife and Game Areas  
Land Use Order of the Director Amendment No. 2 of 2016  
FOR INFORMATION ONLY

Authority:

The Natural Resources and Environmental Protection Act, 1994 PA 451, authorizes the Director to issue orders to implement land use rules.

Discussion and Background:

Land Use Orders of the Director are designed to prohibit certain conduct on state game areas or wildlife areas in order to protect and preserve public lands and other property from depredation, damage, or destruction or wrongful or improper use or occupancy.

Limited Access at Managed State Wildlife and Game Areas

In the Nayanquing Point State Wildlife Area and Fish Point State Wildlife Area, the Department recommends restricting access to areas where signage is posted "state game area - hunting by permit only" to only individuals who possess a valid permit from September 1 to January 1. This restriction would include individuals who are not hunting as well. Department staff will have the ability, as needed, to issue permits for appropriate activities such as scouting prior to waterfowl season, managed trapping, and deer hunting in these areas. Limiting entry during the small game and the regular waterfowl hunting season is designed to reduce disturbance to waterfowl and waterfowl hunters that are hunting with managed waterfowl area permits. Safety concerns will also be addressed by limiting the contact between hikers, wildlife watchers, etc. and hunters in these heavily hunted areas.

In addition, between September 1 and January 1 in the Shiawassee River State Game Area and St. Clair Flats State Wildlife Area, the Department recommends restricting access to areas where signage is posted "state game area - hunting by permit only" to only individuals who possess a valid permit. This recommendation is a technical change. Currently, Shiawassee River State Game Area restriction dates are from September 15 to the end of the regular waterfowl season and in St. Clair Flats State Wildlife Area, the restriction dates are from September 15 to January 1. This recommended change will provide consistent dates across the Southeast region.

Wildlife Refuges at Nayanquing Point State Wildlife Area and Fish Point State Wildlife Area

Currently, at Nayanquing Point State Wildlife Area and Fish Point State Wildlife Area, entry into any area where signage is posted "wildlife refuge - do not enter," is prohibited year-around, unless posted otherwise. At Nayanquing Point State Wildlife Area, a portion of the wildlife refuge is posted, "wildlife refuge- do not enter between September 1 and January 1". This prohibits entry into the portion of the wildlife refuge between September 1 and January 1 and opens up the refuge to all use and occupancy between January 2 to the end of August. The Department recommends that the entire refuge of Nayanquing Point State Wildlife Area be posted, "wildlife refuge - do not enter between September 1 and January 1". In addition, the Department recommends that the entire refuge of Fish Point State Wildlife Area be posted, "wildlife refuge - do not enter between September 1 and January 1". Allowing both refuges to be open outside of September 1 and January 1 will add an additional 1,189 acres across the Southeast region that were previously closed year-around.

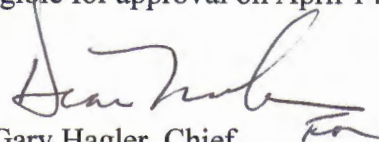

These recommendations would allow the legitimate, lawful use of the area by hunters and other permitted activities, while still serving to restrict access to the area for unauthorized purposes.

Recommendation:

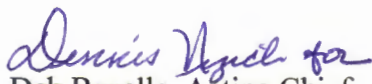

This order is being submitted for information and consideration. This item appeared on the Department's February 2016 calendar and may be eligible for approval on April 14, 2016.
